

C1 - C4 MARINA HEIGHTS

Fire Safety Remediation

KEY TO NOTE

Regen Facades Ltd has been contracted by Bellway Homes to undertake mandatory Fire Safety Remediation works to Blocks C1-4 Marina Heights, Limehouse Basin – to both the Exterior and Interior of the buildings.

Remediation works and their associated costs are being funded by Bellway Homes - there is no cost to residents or leaseholders for these fire safety remediations.

Next Steps & The Building Safety Regulator

- *Regen Facades and the consultant team are preparing the remediation strategy for Blocks C1-4 as part of our Building Control Application to the Building Safety Regulator – this will include undertaking further surveys and providing detailed designs.*
- *The Application will be assessed by a ‘Regulator Appointed Multi-Disciplinary Team’ as well as London Fire Brigade to ensure compliance with current Regulations.*
- *Determination of the Application will take some months to conclude (as the Regulator continues to experience severe delays for Building Control Services), but we will provide updates throughout and as we hear more.*
- *A ‘Meet the Contractor’ event will be organised prior to our commencement on site to provide details about the remediation process and the impact this will have on you.*
